EDITION 2022

European and international cooperation

A key asset for agricultural training

OBJECTIVES

Supporting mobility for pupils, students, interns and all teaching staff

Developing technical and teaching cooperation programmes in agricultural training

Taking part in building the European Education Area

Citizenship and international solidarity education

Enhancing cooperation between scientists and research laboratories

Contributing to the attractiveness of local regions

Implementing actions to provide expertise and technical assistance

Mutual enrichment through exchanges, mobility, projects and actions

Building long lasting ties with partners

Promoting broader geographical coverage with over 100 countries, prioritising those in the EU and the Global South

OPENINGS

A network of teaching institutions open to Europe and internationally with expertise and know-how that can be mobilised in partnerships

▲ Schemes for training and building training templates

▲ Teacher training

▲ Continuum combining training, research, innovation, development and support for agricultural sectors

▲ Teaching school operation and management

▲ The role of the teaching establishment as an actor in local development

RESOURCES

Resources to underpin mobility programmes and partnerships

→ Funding for actions and mobility : EU, international, regional and national

→ European and international networks for each geographical region and subject area in close contact with teaching institutions and regions

→ A network of agricultural affairs advisors and officers of the Ministry in the EU and internationally

→ Enhanced synergies through interministerial work

→ Partnerships with the Erasmus+ Agency, Campus France, AFD, INRAE, CIRAD, IRD, and a range of NGOs
